Yes, it is. They always ask about Transocean and it takes me forever to work out which media it is, partly because we're talking about different things.

Thanks for the update!

Maria/Suzanne:

Assuming this is asking about the OCS General Permit, we are about ready to brief the RA. Depending on input from RA, we may have to do some work on the package prior to getting a go-ahead to send pre signature version of final permit up to HQ for the OMB Significance Review to determine if OMB wants up to 90 days to look at our final permit and make comments/recommendations prior to Charles being able to sign & issue the final permit.

BTW, Nichole is currently up in DC at the ACWA Meeting in the EPA Offices.

Sincerely,

Hi Suzanne,

I am cc'ing Brent in this response so he can give us both an update.

Subject: Transocean Permit

Hi Maria,

Do you know what the status of the Transocean permit is? I think DOJ is trying to make sure they don't do anything with the enforcement case that will mess up the permit.
